

Commission for  
Youth Social Enterprise

To whom it may concern:

I am a freelance media producer and social entrepreneur working with the Commission for Youth Social Enterprise and by freelance contracts on a regular basis.

I have worked with Phil Lewis and Julie Anderson of Secrets Of... on numerous occasions for which Secrets Of... have provided scenery, props, costume services as well as managing every detail of our art department requirements.

I have without fail found both Phil and Julie to be honest, hard working, reliable and professional whilst working with me and I would recommend them unreservedly to work on your production or event.

Their work is of the highest standard and I am continually surprised at the ease in which their company manages to work so quickly and yield such a high standard of work to a deadline.

I would have no hesitation in using their services again and in recommending them to others.

With Warm Regards,

**Joe Moan**
